

# 3D Stereoscopic Viewer - Part 1

Materials you will need:

- Copies of the Stereoscopic viewer pattern - Part one and Part 2 - on card stock
- Scissors
- Glue or Tape
- Two magnifying glasses or a stereo lens

Instructions:

1. Cut out the Stereoscopic Viewer along the solid lines.
2. Fold on the dashed lines.

3. Glue the bottom together where it says "Paste" and glue A to tab-A and B to tab-B.
4. Your Stereo Pairs go in the back. Don't Glue them. You want to be able to change pictures.
5. Hold some magnifying glasses in front of your eyes.
6. If you have a stereo lens, tape or glue it in the eye holes.
7. The Stereoscopic Viewer even folds completely flat. It can be put in a card envelope.
